Income statement

Q1 2025 and YTD

Consolidated revenue amounted to NOK 347.9 million in Q1 2025 (NOK 292.0 million in Q1 2024), representing a 19% increase year-on-year. The increase is a result of the ARR increase over the last year, as well as a beneficial currency development.

Pexip operates in two main product areas. Pexip self-hosted software, which mainly consists of sales from software licenses and related maintenance contracts, and Pexip as-a-Service, which consists of sales from Pexip's public cloud service. Self-hosted software revenue accounted for NOK 200.4 million in Q1 2025 (NOK 166.6, +20%). The increase is due to increased sales. Revenue from Pexip as-a-Service was NOK 147.6 million in Q1 2025 (NOK 125.3 million, +18%).

EMEA was the largest sales area with NOK 164.9 million in revenue (NOK 132.4 million, +25%), followed by Americas, accounting for NOK 156.4 million (NOK 137.1 million, +14%), and Asia-Pacific (APAC), accounting for NOK 26.6 million (NOK 22.4 million, 19%).

Cost of sale consists mainly of network, data center and hosting for the Pexip as-a-Service, as well as 3rd party commissions and software licenses. Cost of sale amounted to NOK 28.8 million in Q1 2025 (NOK 27.1 million), reflecting a gross margin of 92% (91%). The increase in the quarter is related to resale of 3rd party licenses in a combined offering.

Operating expenses consist mainly of salary and personnel expenses and other operating expenses. Salary and personnel expenses amounted to NOK 168.6 million in Q1 2025 (NOK 161.4 million), which is 48% of the quarterly revenue (55%). The increase is mostly related to higher social security costs related to a Q1 share option exercise and part-settlement in cash for tax obligations for primary insiders in management, while other share-based expenses are down due to lower accruals for future social security due to a reduction in the share price during Q1 2025. Pexip had 279 employees employed at the end of Q1 2025 (293).

Other operating expenses amounted to NOK 38.0 million (NOK 39.1 million), which reflects a level of 11% of the quarterly revenue (13%), and with a stable cost level across the various cost categories.

Other gains and losses amounted to a gain of NOK 2.6 million (loss of NOK 6.7 million). The gains in Q1 2025 are mainly related to a received insurance compensation due to an office fire in UK in Q3 2023.

Earnings before interest, tax, depreciation, and amortization (EBITDA) excluding Other gains and losses was NOK 112.5 million (NOK 64.4 million), up NOK 48 million from Q1 2025, reflecting a 32% margin (22%). EBITDA including other gains and losses amounted to NOK 115.1 million in Q1 2025 (NOK 57.7 million), reflecting a 33% EBITDA margin (20%).

Depreciation and amortization costs were NOK 14.1 million in Q1 2025 (NOK 19.8 million). The reduction is a result of lower depreciation of intangible assets.

Net financial income was a loss of NOK 13.9 million (gain of NOK 22.5 million). Pexip had financial income of NOK 7.6 million related to interest on cash holdings (NOK 6.6 million), while the net impact of foreign exchange differences gave a loss of NOK 20.7 million (gain of NOK 16.8 million).

Profit before tax was NOK 87.1 million (NOK 60.4 million). Profit after tax was NOK 66.4 million (NOK 45.4 million).

Financial position

Pexip continues to have a very robust financial position as the company has a solid cash buffer, no material interest bearing debt and a positive cash flow. **Total assets** amounted to NOK 2,265 million (NOK 2,225 million at the end of 2024), and **total equity** amounted to NOK 1.660 million (NOK 1,608 million).

Current assets amounted to NOK 1,069 million (NOK 988 million at the end of 2024). Cash and cash equivalents increased to NOK 622 million (NOK 422 million) and Financial assets (money market funds) increased to NOK 209 million (NOK 206 million). Combined cash and money market funds increased to NOK 830 million (NOK 628 million). Trade and other receivables decreased to NOK 216 million (NOK 333 million), while Contract Assets decreased to NOK 6 million (NOK 7 million).

Non-current assets amounted to NOK 1,195 million (NOK 1,237 million at the end of 2024). Contract costs decreased to NOK 306 million (NOK 325 million), with NOK 5 million from net negative additions and NOK 15 million from foreign exchange translation differences in the subsidiary companies.

Total liabilities were at NOK 605 million (NOK 617 million). NOK 2 million are borrowings (NOK 2 million).

Current liabilities decreased to NOK 521 million (NOK 532 million at the end of 2024), with the decrease being mainly related to a decrease in trade payables.

Non-current liabilities amounted to NOK 84 million (NOK 85 million at the end of 2024).

Cash flow

Q1 2025

Net cash flow from operating activities was NOK 228.0 million in Q1 2025 (NOK 112.3 million in Q1 2024) compared to an EBITDA of NOK 115.1 million. In addition, the Company had a positive fair value adjustment on its money market funds of NOK 2.5 million. In addition to the positive EBITDA, the increase is due to a reduction of trade receivables and other current assets due to collections following high invoicing resulting in a working capital increase in Q4 2024.

Cash flow from investing activities was negative NOK 6.7 million for Q1 2024 (negative NOK 8.7 million). Investments in own software development is NOK 5.8 million compared to NOK 7.5 million in Q1 2024.

Cash flow from financing activities was negative NOK 2.9 million for Q1 2025 (negative NOK 4.3

million). The main cash outflow was related to lease payments for office space. Pexip had a cash inflow related to a share option exercise of NOK 0.9 million in Q1 2025 (NOK 0 in Q1 2024).

This will amount to a total dividend of NOK 260 million for all shares currently outstanding, excluding the impact of the Company's holding of own shares, which will be paid out in Q2 2025.

Risk and uncertainty

Risk management in Pexip is based on the principle that risk evaluation is an integral part of all business activities and is a part of the annual strategy review. Pexip has developed its approach to risk assessment and risk mitigation within financial reporting and information security, where Pexip holds ISO 27001 and 27701 certifications as external recognition of its approach.

Pexip is exposed to several risk factors related to operational and market activities, customer relationships and third parties, laws, regulations, and compliance, financial and market, among others. The Risk and Risk Management section in the 2024 Annual Report contains detailed descriptions and mitigating actions.

The beginning of 2025 has seen increased uncertainty in trade policies across countries and some instability in currency exchange rates. As a company operating in multiple countries, this may have an impact on Pexip's business although software and services are not product categories that so far have been impacted. The Company is continuously monitoring the situation and will seek to adapt to any changes in trade regulations.

Pexip has not identified any further significant risk exposures beyond the ones described in the 2024 Annual Report.

Outlook

Pexip believes that the market for enterprise-grade video communication will continue to increase due to the increased adoption and usage of video communication, and increased awareness of sustainability. Pexip has unique video technology with capabilities within security, interoperability, and flexible deployments. This makes the company well-positioned as enterprises and public sector organizations continue to adopt hybrid working models. Furthermore, Pexip believes in the increased use of video in organizations' workflows with their clients/customers, creating additional new and significant market opportunities. In particular, the use of video for mission-critical, high-security meetings has increased. This is the foundation of the focused strategy Pexip is executing, pursuing market-leading positions in Secure and Custom Video and Connected Spaces.

Pexip's near-term financial targets are to consistently deliver above 10% growth in annual recurring revenues and have an EBITDA margin above 20% with a high cash conversion. The company aims to do this by focusing on niches where Pexip has a unique competitive advantage and a path to become the clear market leader. Long-term the company aims to deliver Rule of 40 performance, with a combined ARR growth rate and EBITDA margin excluding other gains and losses of 40% or more. In Q2 2025 the company's outlook is to end on an ARR of USD 117-120 million from USD 115.5 million at the end of Q1 2025.
